

CHEMISTRY DEPARTMENT GOGGLE POLICY

State law mandates that you must wear splash-proof goggles when working in lab. You must obtain (purchase) a suitable pair of goggles prior to your first scheduled lab and bring them with you to this and all subsequent lab meetings. You are strongly encouraged to store your goggles in your assigned locker for the duration of the semester.

Goggles may be purchased at the EIU bookstore as well as local retailers—expect to pay between \$5-\$16 depending on the type and where they are purchased. Regardless of where you purchase your goggles, they must be splash-proof. Some examples of acceptable goggles:

Shop goggles, safety glasses, visors, and related eyewear are **not** splash-proof and hence, they are **not** acceptable:

If you come to lab without goggles or with unacceptable goggles, you will be **prohibited** from working in lab.

In a pinch, you may **rent** a pair of goggles from the Chemistry Stockroom but only **twice** per semester. The fees (to be billed to the student) are as follows:

1st rental: \$1
2nd rental: \$5

If you are without proper goggles a third time, too bad. You will be prohibited from lab until you obtain (purchase) a suitable pair of goggles.

There are **no** exceptions to this policy.
