Friday, February 7, 4:00 pm

Colloquium

Speaker: Patrick Coulton

Old Main 2231

Title: Expectation Results in the Forest Problem

ABSTRACT: Rip Van Winkle awakes in the forest. He knows the complete geometry of the forest, in other words, he has a map of the forest, but does not know where he is. What is the best path out of the forest? Which path takes the least time? I will describe some strategies for the problem

Friday, February February 14

Lincoln’s Birthday Holiday

No Classes
