

Career & Technical Education (B.S.) – 4 year plan

This major requires that students meet the requirements for Admission, Retention and Graduation from Teacher Certification programs as described in the *Teacher Certification Programs* section of the undergraduate catalog and as explained at the mandatory University Admission to Teacher Education Meeting. Students must gain University *Approval to Take Teacher Education Courses* no later than the end of their first semester of their junior year. All students must pass the *Illinois Certification Test of Basic Skills* for selection into teacher education and should complete this requirement no later than their sophomore year (*for transfer students, no later than the end of their first semester at EIU*). Students must receive a “C” or better in all professional education courses (those courses are identified in the suggested plan by a “+”) and also maintain a minimum cumulative and major GPA of 2.65 in order to continue in the program. Students have two options for completing the professional education coursework – Regular Secondary Education Program, RSEP (R) and Integrated Secondary Education Program, ISEP (I). The required courses under these two options are identified below with the designations of ‘R and I’ respectively. For more information regarding the two options, please consult with your advisor. *Students must have passed the Illinois Certification Subject Area test* for their major and gained *departmental approval* prior to student teaching. Additional information on Admission, Retention and Graduation for Teacher Certification programs can be found on the College of Education & Professional Studies website at www.eiu.edu/ceps/teached
