

Minority Teacher Identification & Enrichment Program

MTIEP was started as a means to recruit and retain students of color as potential teachers in the State of Illinois. The program works with cooperating public schools by establishing local Minority Teacher Education Associations (MTEA) that serve as a resource for activities and information. Since the inception of MTIEP, approximately 7000 students have participated in this program.

Life's most urgent question is:
what are you doing for others?
Martin Luther King, Jr.
