6. To sign up a team or special event, click on the create team link for the sport you want to join. You can do this either from the Home Page or from the Create a Team Page. The Leagues and Divisions that are accepting sign ups will be shown on the left. Then click on the division or league you wish to join. You will see a screen similar to the one shown below. The teams/activities for the division/league you chose will be shown on the screen. If there are available spots, you will be able to set up a team by entering your team name, team number, team password and accepting any terms and conditions that are listed for your registration.

7. To join a team, follow the same basic steps. You will be able to join a team from either the home page or from the Join Teams link. Select the sport and optionally the league or division of the team you want to link. Your screen will look similar to the one below. There are two ways to join a team. If you know the league or division, you can pick that league or division, then select the team from the list, type in the team password, and accept any terms and conditions to join the rosters of that sport. If you only know the team name, you can search for that team name on the drop down list. Again, enter the team password and accept any terms and conditions required (if available) to join rosters of this sport.
