

Introduction to Research Methods in Education
EDA 5900
Research Critique Outline for Boling, Batiuk and Mann

The following questions should be addressed in a brief narrative format.

- 1) What issue is being studied?
- 2) Does the article describe previous research on this topic? What findings are included?
- 3) What is the hypothesis, question or study statement?
- 4) Is this a quantitative or qualitative study?
- 5) Sample and Population
- 6) What means were used to collect and analyze data?
- 7) What were the results?
- 8) What relevance does this study have for practitioners?
- 9) Are the conclusions of this study consistent or inconsistent with your experiences?
- 10) What changes or alterations to the study would make it more relevant to practitioners?
