

# alcohol poisoning

KNOW THE SIGNS, SAVE A LIFE

Consuming large  
amounts of alcohol

Unconscious and  
cannot be woken

Takes less than 8  
breaths per minute

Feels cool and  
clammy to the touch

Skin appears pale  
or bluish in tone

If any of these signs are present, be an active bystander and **call 911 immediately!** Be sure to stay with the individual until help arrives.
