Administration

The Laboratory School of Eastern Illinois University is now, and always has been, dedicated to excellence in education. We work toward this in everything that we undertake, whether it be in the instructional program or other areas of our effort.

DONALD G. GILL

The Twentieth Century is characterized by an abounding faith in the value of education. Eastern's junior high school provides you with an educational foundation upon which future education can be built. There is much to be learned in the world of ideas and I hope that each student will fully accept the challenge and opportunity to develop his talents to the greatest possible extent.
