We live in an exciting but perilous age. Man stands at the threshold of a new "Golden Age" of technical achievement. A better life for all people of the world lies waiting to be taken. Yet we live in peril that man will exercise his awful powers to destroy himself and his world completely. Real hope for mankind lies in an enlightened education for all. My hope is that you who are students today, will achieve the goals of freedom and a better life for all men as you take advantage of the promise that education holds for you.

"I know I speak for the entire faculty when I express the hope that your junior high school years will be among your happiest. The knowledge and skills you learn in junior high school will prove invaluable in your future education and life. The faculty and school are dedicated to helping you become good students and good citizens."
