Principal's Message

Education in this critical time of rapid social change faces unique problems and challenges. At such times, it is important beyond measure that human beings engage in responsible, intelligent thought and action. That part of one's education which comes with schooling must provide a sound basis for this kind of behavior.

The programs of instruction and the organization of the Laboratory School are dedicated to the accomplishment of this task. As you view the pages in this book, it is hoped that you will be reminded of the both seriousness of purpose and the "fun" that goes with attendance at our school.
