Set Course for Polling

Subject (i.e., ART):

Course Number:

Section Number:

Semester (YYYYSS, i.e., SP = 30, SU = 60, FA = 90):

Instructor Module

The screenshot shows a web browser window titled "Polling Control" with two tabs: "Audience Response Module" and "Polling Control". The address bar shows the URL "http://www.eiu.edu/~cats/surveyCentral/pollControl.php". The browser's toolbar includes navigation buttons, a search bar with "Google", and a bookmarks bar. The main content area displays a poll question: "Is the Earth is an oblate spheroid?". Below the question is a table showing the poll results:

Response	Percentage	Count
Yes	83.33%	5
No	16.67%	1

Below the table, there are four buttons: "Refresh Data", "Open Poll", "Close Poll", and "Next Question". A red button labeled "Closed" is positioned at the bottom left of the poll control area.

Moving Forward

- Individual Student Response Tracking
- Additional Results Display Modes
- Pilot with
Department of Communication Studies

Summary

- CATS wants to create mobile apps in direct support of teaching and learning.
- Want to start conversation with campus on ideas for using mobile computing to support teaching and learning.
 - in the classroom
 - outside of the classroom
 - situated learning
 - integrative learning: support experiences in real-time
