

School of Business
Executive-in-Residence Program

The School of Business Executive-in-Residence Program is primarily a student motivational tool with a secondary purpose of providing an opportunity for the firm to express where they fit in the world of business, what their business expects from their professional employees, and what tools and skill sets prospective employees are expected to have.

In order for students to gain an understanding of the concepts and processes fundamental to productive business activity, the Executive-in-Residence shares the scope of activity and responsibilities of his/her position, how activity within his/her area is linked to other functional areas within the organization, and the personal background in developing the skills necessary for the position he/she holds.

The program brings real-world business experience into the classroom.

Metavante Executives in Residence

Gary Bakker
President, Risk and Compliance Solutions
Metavante

“Fraud Schemes: How banks protect you. How you should protect yourself.”

Wednesday, February 25 at 7:00 p.m.
Roberson Auditorium, Lumpkin Hall 2030

Biography

Gary Bakker is president of the Metavante's Risk and Compliance Solutions division. Bakker is responsible for setting and overseeing strategic marketing, sales, and product development. Metavante's Risk and Compliance Solutions division consists of a wide variety of products and services that deal with operational risk management and regulatory compliance.

Bakker has over 25 years of financial services management experience in trust services, customer relationship management and banking systems and software. Bakker rejoined Metavante in 2004 with the company's acquisition of NuEdge Systems Inc., a leading provider of customer relationship management solutions for enterprise marketing automation. Prior to NuEdge, Bakker held positions with both M&I Trust Company and Metavante where he held various management positions in product management, development, item processing and operations.

Bakker has a bachelor's degree in computer science from the University of Wisconsin-Madison.
