

## Proposed Program Requirement Changes

### Career and Technical Education (CTE) Business Education Emphasis

Beginning in July 2004, content area certification tests will change. The new tests will be based on the recently adopted teacher education standards in Business, Marketing, and Computer Education. Tests will be relative to the goals and objectives expressed in the standards. In order to better align the CTE Business Education requirements to the standards, and to assure that students will receive all the content on which they will be tested, it will be necessary to make slight adjustments in the courses that students are required to take.

The changes in course requirements are summarized below:

1. **Remove** the CIS 2000, 3200, or 3530 option because students receive some of the content in other courses and other content is not necessary.
2. **Remove** the BUS 3710 requirement because it is no longer needed.
3. **Include** in the 36-hour Business Education requirements:
  - a. BUS 2750 – Legal and Social Environment of Business
  - b. BUS 3010 – Management and Organizational Behavior
  - c. BUS 3470 – Principles of Marketing
