

Proposal #3

After reviewing the function of CUPB, according to the bylaws, another possible restructuring proposal has been developed at the request of the CUPB membership.

The following proposed CUPB composition is based on the concept that current CUPB members are appointed or elected to represent existing constituents. Their function is to advise the president, as described in the bylaws. Therefore only one member from each campus constituent is represented in the proposed composition, to share the collective voice of their constituents.
