Rob Sipes is an Assistant Professor in the Kinesiology and Sports Studies department and the Clinical Coordinator of the Athletic Training Education Program. He received his Masters Degree in Kinesiology from California State University, Long Beach and is currently completing his Doctoral dissertation at Illinois State University. Rob's research interests range from critical thinking and outcome assessments in the educational realm to shoulder injuries and postural assessment in the athletic training realm. He has several presentations at national and international conferences and has worked as a consultant with the Illinois High School Association.
