

Julie A. Chadd

Julie Chadd has been an assistant professor of Career and Technical Education in the School of Technology at Eastern Illinois University since 2003. She has taught a variety of courses including Inquiry to Teaching Career and Technical Education, Methods for Teaching Career and Technical Education, Consumers in the Marketplace, Survey of Business Principles, Work-Based Learning, Seminar in Teaching Keyboarding and Computer Applications, and Coordination of Cooperative Education Programs.

Dr. Chadd's research interests include active learning strategies, work-based learning, teaching strategies, and changes in business education. She had presented numerous times at national and state conferences. The Faculty Development Support Grant will be used to help fund participation in the Delta Pi Epsilon annual conference where she will present the results of a study on the impact the No Child Left Behind Act has had on Career and Technical Education at the secondary level.
