

## **Guccione Samuel**

I am an Assistant Professor in the School of Technology and the Coordinator of the Departments Automation and Control laboratory. I work with robotics, automated processes, industrial computers and human machine interface in process control. I came to EIU after 27 years as a Department Chair and Assistant Dean and occasionally Dean at a community college on the east coast. Before he began teaching, I worked for 10 years at McDonnell-Douglas (now Boeing) and other companies as an aerospace engineer in the US space program. I have degrees in Electrical Engineering from the University of Illinois and a doctorate in education from Temple University, Philadelphia. This is my 6<sup>th</sup> year at Eastern.
