

Appendix B - DPD

Assessment Plan for DPD Program Goals: 2007-2016

Program Goal 1.

Prepare graduates to have the foundational knowledge and skills for entry-level dietitians in a diverse society.

Outcome Measure	How, where, and when assessed? By whom?	Results	How results will be used, and by whom?
Within two years of completing the DPD, at least 60% of graduates of those completing the alumni survey will have passed the RD exam, obtained employment related to foods and nutrition, or be enrolled in an accredited continuing education program.	The DPD Coordinator will track this information through the administration of the alumni survey.		The dietetics faculty will review the data annually, noting any trends.
Alumni achieve over a 5-year reporting period a first-time pass rate of at least 80% on the RD exam.	The DPD Coordinator will track this information through data shared by ACT.		The dietetics faculty will review the data twice annually, and take the appropriate action depending on results.
90% of senior dietetic students who participate in the computer match process receive a match.	The DPD Coordinator will track this information.		The dietetics faculty will review the data twice annually, noting any trends.

Additional data will be utilized from the Student Learning Assessment Plan.

Program Goal 2.

Continue to promote dietetics, and its diversity, as a viable career choice.

Outcome Measure	How, where, and when assessed? By whom?	Results	How results will be used, and by whom?
A minimum of ten recruitment activities will occur each year.	The DPD Coordinator will monitor the activities, noting who, when, where, and how the activities occurred.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
By the time they graduate, DPD students will be able to identify six diverse career tracks.	Assessed via DPD Portfolio assignment submitted in FCS 4150 and assessed by the DPD Coordinator.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
50% of native students and 25% of transfer students will identify a recruitment activity as contributing to their major decision.	Assessed via DPD Portfolio assignment submitted in FCS 4150 and assessed by the DPD Coordinator.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
75% of those junior DPD students will complete the DPD.	The DPD Coordinator will monitor retention based on the official 10 th day enrollment rosters.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.

Program Goal 3.

Continue to support the needs of the DPD by offering a wide variety of learning experiences, in and out of the classroom, that provide theory-to-practice, relationship-driven education.

Outcome Measure	How, where, and when assessed? By whom?	Results	How results will be used, and by whom?
The number of DPD courses with points allotted for critical thinking will increase by one per year.	The DPD Coordinator will monitor this.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
Enrollment of DPD students in the SFCS Catering will increase by 1 DPD student per year.	The catering instructor will share course enrollment with the DPD Coordinator.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
Case studies will be incorporated into at least 80% of the upper division DPD courses.	The DPD Coordinator will monitor this.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
Each student member of OPEN will complete at least one presentation/semester.	The Nutrition Education Coordinator will share the activity log with the DPD Coordinator.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
50% of senior DPD students will have job shadowed a RD.	Assessed via DPD Portfolio assignment submitted in FCS 4150 and assessed by the DPD Coordinator.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
All FCS 3151 students will display theory into practice by participating in the required volunteer activities.	Assessed via course reflection and activity log each semester by the course instructor.		The dietetics faculty will review the results with the Director of CASA reviewing the plan as well.
