Unit Theme: Educators as Creators of Effective Educational Environments: Integrating diverse students, subjects, strategies, societies and technologies.

Course Description: This course emphasizes monitoring children's learning through data-driven assessment in order to meet the needs of diverse learners. Topics will include effective classroom management and developing positive teaching dispositions in order to become a reflective practitioner. This course includes class meeting times and supervised field experiences (minimum 60 hours). (2-3-3)

Prerequisites: Elementary General option: ELE 3100, 3280, 3340, 3350; Early Childhood: ELE 3250, 3281, 4775; or Middle Level: MLE 40001, 3110, 4760. University Teacher Education requirements apply and department requirements for enrollment must be met.

Course Purpose:
This course emphasizes monitoring children's learning through data-driven assessment in order to meet the needs of diverse learners. Through implementation and reflection the teacher candidate will examine the effective cycle of teaching: planning, instruction and assessment that fosters a positive learning environment. This course includes class meeting times and supervised field experiences (minimum of 60 hours). A student must maintain a "C" average in all course work to be placed/continue in practicum.

Admission to student teaching depends upon successful completion of ELE/MLE 4100, a positive recommendation of the cooperating classroom teacher with whom the teacher candidate participates for 60+ clinical hours, and along with the instructor's referral to continue in the teacher education program.

Teaching Model:

The Information-Processing Models
- **Information-processing models** emphasize ways of enhancing the human being's innate drive to make sense of the world by acquiring and organizing data, sensing problems and generating solutions to them, and developing concepts and language for conveying them (pp 10-13).

- **Social Models:** When we work together, we generate a collective energy called *synergy*. The social models of teaching are constructed to take advantage of this phenomenon by building learning communities. Essentially, classroom management is a matter of developing cooperative relationships in the classroom. The development of positive school cultures is a process of developing integrative and productive ways of interacting and norms that support vigorous learning activity. (pp. 13-15)

Dispositions: Teacher candidates in the Department of EC/ELE/MLE will exhibit professional ethical practices, effective communication, sensitivity to diversity, and the ability to provide varied teaching practices evidenced in a supportive and encouraging environment.

Contract of Professional Responsibilities: Through course work and field experiences you will acquire the knowledge, skills, and behaviors that will help you grow into a dedicated practitioner who provides high quality learning experiences. Field experience placements are offered to teacher candidates that exhibit professional dispositions and a commitment to teaching and learning. As part of the C.O.R.E. requirements you are to read, sign, and agree to a **contract of professional responsibilities**. Failure to fulfill these expectations and responsibilities will result in a cancellation of your field experience placement and if applicable your withdrawal from this course.

Live Text Assessment and/or Practicum Requirements: For those classes with Live Text and/or Practicum- If the portfolio, practicum, and/or Live Text requirements are rated by the instructor to have been completed in less than a satisfactory manner then no more than a "D" may be earned in the class regardless of the number of points earned.

- Follow all guidelines and professional requirements as stated in the syllabus including LiveText submissions.
- Turn off cell phones and other electronic devices while on school grounds.
- Turn off cell phones and other electronic devices during class.
- In the case of absence or emergency, notify the cooperating teacher and the course instructor of my absence prior to the start of the field experience that day. Any hours missed must be rescheduled at a time that does not conflict with EIU classes and is approved by the cooperating teacher.
- Understand that, as stated in the syllabus, a positive referral from the field experience cooperating teacher is needed along with my instructor's referral to continue in the teacher education program.

I understand that in order to be placed or continue in field experiences, I must maintain these professional responsibilities in ALL C.O.R.E. classes:

- Attend and actively participate
- Exhibit positive dispositions
- Maintain no less than a "C" average

NOTE: I understand that scheduling meetings (e.g., with my student teaching coordinator) and/or scheduling appointments (e.g., registering to take a content test) during any class meeting times reflects negatively on my commitment to teacher education and does not represent the dispositions necessary for success in the program. Therefore, I agree to not allow other commitments to interfere with my regular class attendance.

I understand that all dates for assignments are stated in the syllabus and if professional requirements have been completed in less than a satisfactory manner, no more than a "D" may be earned in the class regardless of the number of points earned.
