Unit Theme: EDUCATOR AS CREATOR OF EFFECTIVE EDUCATIONAL ENVIRONMENTS:
 INTEGRATING STUDENTS, SUBJECTS, STRATEGIES, SOCIETIES AND TECHNOLOGIES

Graduate Mission Statement:

The Graduate Program in Elementary Education advances scholarly preparation by providing quality teaching and promoting excellence in research/creative activity in order for graduate students to exemplify best teaching practices for children from birth through age fourteen. The graduate curriculum encompasses comprehensive content knowledge and promotes the use of critical thinking and problem solving to cultivate teacher-researchers who are empowered to serve as leaders in the profession. Faculty members challenge students to bridge the gap between theory and practice as they develop the skills required for ethical and effective collaboration and communication within the local school community and a culturally diverse, technologically advanced global environment.

Outcomes for all Graduate Students at Eastern Illinois University

Graduate students will:

1. *possess a depth of content knowledge including effective technology skills and ethical behaviors;*
2. *engage in critical thinking and problem solving;*
3. *exhibit effective oral and written communication skills;*
4. *engage in advanced scholarship through research and/or creative activity;*
5. *demonstrate an ability to work with diverse clientele, recognizing individual differences; and*
6. *collaborate and create positive relations within the school, community, and profession in which they work.*

Course Description: Supervised practice in diagnosing, treating, and reporting on cases of reading disability (1-2-3).

Course Goals: This course builds on ELE 5600 and ELE 5610 as students gain experience in diagnosing and remediating an individual child's reading difficulties and prepare a detailed case study with the purpose of reporting results to parents and school personnel.

Purpose of the Course: This is the only graduate level practicum in reading offered at Eastern Illinois University. The course partially fulfills an Illinois State Board of Education requirement for the reading teacher endorsement.

Learning Model:

Information-processing models emphasize ways of enhancing the human being's innate drive to make sense of the world by acquiring and organizing data, sensing problems and generating solutions to them, and developing concepts and language for

conveying them. (pp. 10-13)

Illinois Professional Teaching Standards http://www.isbe.state.il.us/peac/pdf/IL_prof_teaching_stds.pdf

Performance Outcomes: By the end of this practicum, the student will have...

- determined the levels of a child's reading competence.
- identified the child's specific strengths and weaknesses in reading.
- planned and conducted remedial lessons using a variety of instructional materials and strategies.
- evaluated and reported progress in the form of a case study.

Course Requirements:

A. Careful preparation for and implementation of the diagnostic-prescriptive tutoring sessions (50%) - This involves professional conduct, including the development of a rapport with the parents and their child, and observance of confidentiality. A minimum of twelve sessions (i.e., each lasting 1 1/2 hrs.) is required in the course. The seminar will be conducted before and after the tutoring sessions (i.e., between 4:30 - 5:00 p.m. and 6:30 - 7:00 p.m.). **Parents will drop off their children at 5:00 p.m. and pick them up at 6:30 p.m.**

Outline for Weekly Literacy Lessons (Lesson Plans):

Identifying Information:

- Name of clinician
- Date of session
- Name of client
- Grade level of client

Assessments Planned:

- Name of assessment(s)
- Estimate of time required - a total of approximately 30 minutes
- Rationale

Literacy Lesson Framework:

- Familiar reading (fluency) - approximately 5 minutes
- Guided Oral/Silent Reading - approximately 30 minutes
(Before -- During -- Post-reading Activities)
- Writing (Shared Writing and Cut-up Sentences, Process Writing) - approximately 15 minutes
- Word Sorting/Working with Words - approximately 5 minutes
- Book Sharing - approximately 5 minutes

Provide the following information for each component of the literacy lesson which is planned: **purpose**; **materials**; **procedure**; and **evaluation**. Each component should target specific reading skills/strategies such as word recognition (e.g., sight vocabulary, contextual clues, structural analysis, or phonics elements); fluency; comprehension; writing, etc. These lesson plans will be shared and discussed during the weekly seminars. (Each literacy lesson plan is worth 30 points.)

Where to Obtain Reading Materials/Suggested Activities - Materials are available in the Reading Center, Booth Library, public libraries, the Instructional Technology Center, the Internet, the newspaper, course instructor, and other sources. Remember that the Language Experience Approach (LEA) or student writing both provide additional sources of meaningful reading material.

Practicum Guidelines:

- Strive for clear communication with parents
- No transportation of children in personal cars
- No breaks beyond 10 minutes
- Always let the course instructor know where you are going if you leave your assigned clinic room for more than 10 minutes

NOTE: If it is necessary for you to miss one of the practicum dates on short notice, please notify the course instructor and the parents immediately. You will need to make arrangements to reschedule the tutoring session.

B. Successful completion of the case study* (50%) -

- assessment documentation
- lesson plans for remedial sessions
- narrative evaluation of the child's strengths and weaknesses in reading
- suggestions for continued instruction
- neatness and correctness

*Refer to the Instructions for the Case Study for additional information and specific guidelines.

NOTE: Students will be responsible for duplicating three extra copies of the final case study. (The final case study is worth ____ pts.)

Although graduate courses may have common assignments (e.g., critiques of journal articles, literature reviews, or research papers), the overall goal of the program in elementary education is to provide a “spiral curriculum”. The class assignments submitted by a graduate student must provide evidence of growth and advancement by building upon prior coursework, but not duplicating previous projects, experiences, or materials.

Guide to Assessments in the Graduate Reading Practicum:

Clinicians will choose a minimum of six assessments appropriate to the level of the client. At least two should be norm-referenced.

A well-balanced assessment portfolio should contain the following:

- an interest inventory/attitude survey (Use only one instrument. Additional information can be ascertained by talking with or observing the student.)
- analysis of word identification skills (i.e., sight words, contextual analysis, structural analysis, and phonics)
- an Informal Reading Inventory (including a graded word list and appropriate oral, silent, and/or listening comprehension passages)

d. norm-referenced tests (useful possibilities appear below):

- Gates-MacGinitie (a general achievement test in reading)
- Gray Oral Reading Test [GORT] (comprehension)
- Test of Reading Comprehension (comprehension)
- Peabody Picture Vocabulary Test III (receptive vocabulary)

Selection of tests will be predicated upon the type of information that is required. Additional instruments will be made available as needed. The course instructor will assist clinicians in checking out all materials.

Interpretation of Results:

** Clinicians are to submit information regarding the individual assessment tools that have been completed as they are administered/interpreted during the semester. Use the "Summary Cover Sheet" outlined above to concisely summarize the information obtained from the student. Submit any/all data sheets/testing materials along with the Summary Cover Sheets to the course instructor for each of the six assessments that are required. The course instructor will review the results/interpretation to insure accuracy and provide additional input or observations regarding the child's performance.

Instructor's Policies for the Course (i.e., attendance and late assignments):

Evaluation: Evaluation of student progress will be on the basis of careful preparation for and implementation of the diagnostic-prescriptive tutoring sessions (360 pts.) and successful completion of the case study (360 pts.). A total of 720 pts. is possible in the course and grades will be assigned based on the percentage of total points a student earns. The following grading scale will be employed.

GRADES	
A	(93-100%)
B	(85-92%)
C	(77-84%)
D	(69-76%)
F	(68% and below)
