Unit Theme: Educators as Creators of Effective Educational Environments: Integrating diverse students, subjects, strategies, societies and technologies.

Course Description: This course is designed to introduce students to the influences that development (physical, social and emotional, cognitive, linguistic), past experience, prior knowledge, economic circumstances and issues of diversity have on the learning process. Educational beginnings, curricular trends, professional issues in teaching, characteristics of schools and other learning environments will be explored. Students will become familiar with professional dispositions and begin to practice habits of positive dispositional behavior both in and out of the classroom. Students will complete a minimum of 30 observation hours of preschool through middle school environments (3-1-3).

Purpose/rationale: This course is driven by the need to prepare teacher candidates for newly designed standards-based requirements. New expectations have a greater emphasis on subject matter mastery, the ability to display critical thinking and writing skills, and providing evidence of understanding the contextual diverse needs of all learners.

Prerequisites: The prerequisite for this course is ELE 1050 for EC/ELE/MLE majors. Transfer students can take ELE1050 and ELE 2050 concurrently.

Prerequisites for Observation: A background check is **required** for ELE 2050 before observing in schools. You may not go out to any school for an observation until the Dean's office has your background check on file and your ELE 2050 instructor has received notification from the Dean's office indicating your eligibility for observations.

Practicum Policy: You may not enroll more than twice in any undergraduate professional education course that includes a field experience or practicum. If you wish to attempt such a course beyond that limit, you must appeal to the department offering the course. If your request is approved, your department must develop a remediation plan that you must complete prior to re-enrollment.

Teaching Model:

The Information-Processing Models

- Information-processing models emphasize ways of enhancing the human being's innate drive to make sense of the world by acquiring and organizing data, sensing problems and generating solutions to them, and developing concepts and language for conveying them (pp 10-13).

The Social Model

- When we work together, we generate a collective energy called synergy. The social models of teaching are constructed to take advantage of this phenomenon by building learning communities. Essentially, classroom management is a matter of developing cooperative relationships in the classroom. The development of positive school cultures is a process of developing integrative and productive ways of interacting and norms that support vigorous learning activity (pp 13-15).

Joyce, B., Weil, M., & Calhoun, E. (2015). *Models of teaching*. (9th ed.). Boston: Pearson.

Dispositions: Teacher candidates in the Department of EC/ELE/MLE will exhibit professional ethical practices, effective communication, sensitivity to diversity, and the ability to provide varied teaching practices evidenced in a supportive and encouraging environment.

Contract of Professional Responsibilities: Through course work and field experiences you will acquire the knowledge, skills, and behaviors that will help you grow into a dedicated practitioner who provides high quality learning experiences. Field experience placements are offered to teacher candidates that exhibit professional dispositions and a commitment to teaching and learning. As part of the C.O.R.E. requirements you are to read, sign, and agree to a **contract of professional responsibilities**. Failure to fulfill these expectations and responsibilities will result in a cancellation of your field experience placement and if applicable your withdrawal from this course.

Live Text Assessment and/or Practicum Requirements: For those classes with Live Text and/or Practicum- If the portfolio, practicum, and/or Live Text requirements are rated by the instructor to have been completed in less than a satisfactory manner then no more than a "D" may be earned in the class regardless of the number of points earned.
