Thank you for taking another look at your department’s statement of Departmental Application of Criteria (DAC) in light of my review comments and suggestions. The further revised DAC sent via e-mail attachment on October 17, 2008, is approved consistent with Article 8.7.c. of the 2006-2010 EIU-UPI Unit A Agreement (Agreement). As always, any reading of the DAC will be consistent with the Agreement or its successor agreement(s).

I note the use of the word “assessment” in the revised DAC. It should be understood that the DAC describes the materials and methods for evaluation of faculty as described in the collective bargaining agreements and that the use of the word “assessment” in the DAC is not to be confused with its use regarding program assessment.

The contributions of the Department of Secondary Education & Foundations are appreciated, and I continue to encourage consideration of the University’s articulated academic goals in the department’s deliberations.

attachments: Further Revised DAC; Department of Secondary Education & Foundations

c: Pat Fewell, Chairperson, Department of Secondary Education & Foundations
DEPARTMENTAL APPLICATION OF CRITERIA
for Faculty Evaluation and Development

DEPARTMENT OF SECONDARY EDUCATION & FOUNDATIONS
2007-2010

The Department of Secondary Education and Foundations (SED-EDF) will use the following guidelines and procedures to achieve the purpose stated in Article 8 of the EIU-UP1 Agreement for 2007-2010. In order to provide recommendations for that purpose, the Department Personnel Committee (DPC) shall assess faculty as stated below.

Following the Unit A Faculty Agreement, the department's DPC will assess Unit A candidates for retention, tenure, promotion, and PAIs, in three areas: Teaching/Performance of Primary duties, Research/Creative Activity, and Service. The DAC identifies Teaching as the most important, with Research/Creative Activity and Service secondary but equal to each other in importance. Following the Unit B Faculty Agreement, the DPC will normally assess Unit B faculty on the basis of Teaching/Performance of Primary duties alone. However, annually-contracted faculty (ACFs) who have not qualified for a performance-based increase (PBI) based on successive annual assessments may apply for a PBI based on evidence of superior performance in the aggregate, including contributions to the university in addition to those contractually required.

For each area, assessment procedures will involve (a) categories of materials and activities that faculty may submit, (b) methods of assessment that reviewers/assessors may use, and (c) relative importance of areas of activity, including assignments and responsibilities. Judgments regarding performance of faculty in Teaching/Performance of Primary Duties, Research/Creative Activity and Service shall be based on qualitative and quantitative assessments.

For purposes of assessment, the faculty member will submit evidence of materials and activities, placing them in a single appropriate performance area. The faculty member will identify all such evidence with names, dates, and other pertinent information. Within each area, the DAC’s list of Categories of Material and Activities and its list of Methods of Evaluation is meant to be illustrative, not exhaustive.

In developing and maintaining their portfolios, faculty members are expected to know the relevant details of the DAC and the EIU-UP1 Agreement.

A. Teaching/Performance of Primary Duties

I. Categories of Materials and Activities for Evaluation (not listed in priority order):

A. Evaluation by Colleagues
   Examples: Peer evaluation
B. Chair evaluation report

C. Student evaluations including all narrative comments
   Candidates may also include communications from students that relate to quality of teaching.

D. Materials and Services Provided to Support Teaching
   1) In the classroom
      Examples: syllabi, assessment/evaluation instruments developed and used, supplemental instructional materials, documentation of innovative teaching activities, integration of technology in the classroom (including distance learning), writing assignments and engaged learning projects.
   2) Outside the classroom
      Examples: New courses designed, curricular revisions, seminars and workshops conducted, teaching classes outside one’s specific assignment, serving on examination committees, directing independent study, formal and informal advising activities.

E. Study Undertaken to Improve the Quality of Teaching
   Examples: workshops or seminars attended, professional conferences attended, courses taken, books or articles studied, report of sabbatical or leave activities related to teaching, consultation with the chair and other faculty colleagues to improve quality of teaching.

II. Methods of Assessment

Consistent with Article 8.4, the DPC shall assign a rating of satisfactory, highly effective, or superior based on its overall assessment of materials submitted. The DPC will take into consideration the faculty member’s workload and duties.

Classroom visits for peer evaluation: Each candidate will be evaluated by at least one peer during a one-year evaluation period; and at least three times by at least three different peers during a period of evaluation that is more than one year. No more than one peer evaluation shall take place during a given semester. All peer evaluators must be Unit A colleagues from the department. The candidate will choose peer evaluators according to the above criteria, arrange classroom visits, and provide the evaluator, prior to the visit, with representative course materials taught during the evaluation period. Peer evaluators shall use the Approved University Peer Evaluation form to provide written evaluations. (Note: The above form does not require use of contractual terms, such as Highly Effective and Superior, that are prescribed in Article 8.4 for the overall evaluation of the candidate.) During the evaluation period, peers shall visit at least two different courses, with one exception: if the candidate is teaching only one course, peers
shall visit at least two different sections. Peers will evaluate distance learning
courses based on both technological and pedagogical criteria. All members of
the DPC shall have access to peer evaluation reports during the evaluation
process and may discuss them with the peer reviewers and the candidate.

Chair visit: Each candidate shall include in his/her portfolio at least one chair
evaluation report for an evaluation period of one year; and at least two chair
evaluation reports for an evaluation period of more than one year. No more than
one chair evaluation shall take place during a given semester. The faculty
member will be responsible for scheduling the visit of the chair. The chair shall
complete a narrative chair evaluation form (copy attached) and provide a copy to
the faculty member in a timely manner.

Student evaluations: For each semester that a candidate is teaching, he or she
shall submit student evaluations from at least two different courses—or, if he/she
is teaching only one course, from at least two different sections. Faculty in their
first year of employment, faculty whose overall assessment has been deemed
unsatisfactory during the previous year, and Unit B faculty, including part-time
faculty, shall submit student evaluations from all sections of all courses they
teach. Faculty will use uniform evaluation forms that include university core items
and any additional items approved at the inception of each new DAC by majority
vote of department faculty who are teaching full time. For distance learning
courses, additional items must refer to both pedagogical and technological
aspects of distance learning. The DPC shall assess evidence from student
evaluations both qualitatively and quantitatively, taking into account the size and
makeup of the class as well as other considerations suggested by a review of
representative course materials. Faculty members will furnish a student or
colleague with an envelope containing the evaluation forms. The student or
colleague will distribute, collect, seal, and deliver evaluation forms to the
department chair or a faculty colleague who will then deliver the completed forms
to the Office of Academic Assessment and Testing for tabulation of results. The
department chair will return results to the faculty member after the candidate has
submitted final grades to the Records Office. Faculty who teach an on-line
course may choose either on-line or in-person student evaluations, as the faculty
member deems appropriate. The DPC may disregard on-line course evaluations
if the return rate is less than 50%.

All members of the DPC will review the student evaluation summary tabulations
and the student evaluation forms with narrative comments and may discuss them
with the candidate. Faculty members must include in their faculty evaluation
portfolios all student evaluations collected and shall be responsible for
maintaining copies of all student evaluations to be used in these portfolios.
Student evaluations are to be kept by the faculty member for the duration of any
evaluation period, including the period of any grievance or arbitration procedure.
III. Relative Importance

Evidence from the above categories will be considered as a whole in assessing the faculty member's portfolio.

B. Research/Creative Activity

I. Categories of Activities

A. Published Works
   Examples: Books, chapters, articles, book reviews; and media materials, such as web pages, TV programs, and computer software related to professional field. Relevance of research/creative activity to one's area of academic specialization must be documented. The faculty member should identify peer reviewed and invited works as such when appropriate.

B. Other Externally Recognized Research/Creative Activity
   Examples: Professional papers presented at conferences and workshops, public lectures, participation on professional panels, external or university awards or research grants. Relevance of research/creative activity to one's area of academic specialization must be documented. The faculty member should identify peer reviewed and invited works as such when appropriate.

C. Editorial or advisory contributions
   Examples: Editor of professional publication, referee of material for publication or presentation, consultant, faculty member's contribution to research done by a student. Relevance of research/creative activity to one's area of academic specialization must be documented.

D. Work in Progress, Scholarly Study
   Examples: Manuscript prepared; progress on unfinished research - to be documented in as much detail as possible; talk(s) presented on campus; grant proposal(s) submitted; conference(s), seminar(s), or workshop(s) attended; course(s) taken (other than toward completion of a terminal degree). Relevance of research/creative activity to one's area of academic specialization must be documented. The faculty member should identify peer reviewed and invited works as such when appropriate.

E. Other Contributions to Research/Creative Activity
II. Methods of Assessment

Consistent with Article 8.4, the DPC shall rank a faculty member's performance as unsatisfactory, satisfactory, significant, or superior. Exception: Articles 8.4.b and 8.4.c of the Agreement provide for a ranking of appropriate for employees in their first probationary year only.

Consideration of materials and activities will be in accordance with Article 8.6 of the Agreement. The faculty member's workload and duties, as well as other considerations suggested by review of materials submitted, will be taken into account.

III. Relative Importance
Evidence from the above categories will be considered as a whole in assessing the faculty member's portfolio. Relative importance of national, international, regional, state, and local professional activities will be considered.

C. Service

I. Categories of Activities

A. Organizational Leadership
   Examples: Officer of college or university council/committee (standing or ad hoc), director or advisor to a student organization, officer of a local, state, regional, national or international professional organization, or chair of a state, regional, national or international professional conference, chair of a departmental search committee.

B. Organizational Participation
   Examples: Participating member of local, state, regional, national, or international organizations or committees that provide service to the varied publics of EIU; participant in a professional conference; consultant for individuals, organizations, or institutions, member of a departmental search committee.

C. Other Professional Service
   Examples: Member of an elected or appointed school, college or university, board, or council, member of departmental committee, membership in a professional organization, service to the faculty and students in the department, college or university, participation in service or technology projects.
II. Methods of Assessment

Consistent with Article 8.4, the DPC shall assess whether an unsatisfactory, satisfactory, significant or superior performance level has been achieved. Exception: Articles 8.4.b and 8.4.c of the Agreement provide for a ranking of appropriate for employees in their first probationary year only. Consideration of materials and activities will be in accordance with Article 8.6 of the EIU/UPU Unit A Faculty Agreement. The faculty member’s workload and duties, as well as other considerations suggested by review of materials submitted, will be taken into account.

III. Relative Importance

Evidence from the above categories will be considered as a whole in assessing the faculty member’s portfolio.

IV. Composition of Department Personnel Committee

The Department Personnel Committee (DPC) shall be composed of and elected by the Unit A faculty of the department in accordance with Article 8.8.a of the Agreement and will perform functions specified therein. The DPC shall consist of three department members (representing both of its divisions -SED and EDF), plus an alternate member, who will replace any DPC member who is the subject of DPC deliberations during those deliberations. After one year, the alternate member will rotate onto the committee for a term of three years and therefore must be elected so as to maintain a balance between SED and EDF members. The third-year member will serve as chair.

All DPC members must have been full-time tenure track members of the department during the entire academic year immediately preceding their nomination. No DPC member may serve for two or more consecutive three-year terms.
I have observed the teaching/performance of primary duties of __________________on date(s) _____________________.

NOTE: This report is based only on the events observed during the above-mentioned visit(s). It includes mention of all such events that are significant enough to be referenced later in the evaluation process. (Additional pages may be attached as needed). A copy of this report will be given to the faculty member within two weeks of the last visitation and at least two weeks before the end of the evaluation period.

1. Command of the subject matter or discipline.

2. Oral English proficiency (as mandated by the Illinois statute).

3. Ability to organize knowledge or material for teaching and learning.

4. Ability to analyze knowledge or material for teaching and learning.

5. Ability to present knowledge or material for teaching and learning.

6. Ability to encourage and interest students in the learning process.

Date: ____________________________

Chair Signature
PEER EVALUATION FORM

In accordance with Article 8.3.a.(3)(a) of the Agreement, I have reviewed the teaching/ performance of primary duties of [professor's name] on [date/s] [date/s] and considered the following items upon which I have commented and offered examples:

[Additional pages may be attached as needed]

1. Command of the subject matter or discipline.

2. Oral English proficiency (as mandated by Illinois statute).

3. Ability to organize knowledge or material for teaching and learning.

4. Ability to analyze knowledge or material for teaching and learning.

5. Ability to present knowledge or material for teaching and learning.

6. Ability to encourage and interest students in the learning process.
