

Transfer Guide Earth Science A.S. to Geology B.S.

Southwestern Illinois College and Eastern Illinois University

This is a suggested course pattern. Students must work with their advisor to develop a curriculum plan that meets their scheduling needs. Summer classes can also reduce the load during the fall and spring semesters.

COMMENTS

¹ A grade of "C" or better is required for EIU graduation.

² One course must meet Non-Western Culture requirement and one course must meet Human Relations requirement for SWIC.

³ May need a prerequisite or appropriate math placement score.

⁴ Apply to Eastern one year prior to enrollment. Have official transcripts sent from College and high school.

⁵ May need a prerequisite course.

⁶ See Graduation Requirements in SWIC Catalog for Associate in Science Degree.

⁷ Completion of the second semester of a single foreign language is a graduation requirement. Students are exempt if two full years of a high school foreign language is complete with a "C", average or better.

⁸ Select from approved Department electives chosen in consultation with an EIU faculty advisor.

⁹ GEO 4800 does not run during the regular academic year; it is a summer course and held in a summer semester. GEO 4800 is a class offered through other universities during the summer term immediately following the Senior Spring Semester.

Articulation Agreement

Between

Eastern Illinois University

And

Southwestern Illinois College

Southwestern Illinois College (SWIC) and the Board of Trustees of Eastern Illinois University (EIU) form a cooperative relationship through this articulation agreement to serve better our public constituents, to smooth transfer, to minimize duplication of instruction, and to build on community college and university learning experiences. Both institutions recognize that working together, their collective efforts are stronger than their individual efforts.

The two institutions agree to the following:

1. Any student who has completed a transferable associate in arts degree at SWIC consistent with the Illinois Articulation Initiative (with the required 2.00 GPA) and submits required application and supporting documentation will automatically be admitted to EIU at the junior level and will be deemed to have met EIU's lower division general education requirement.
2. Acceptance into a specific EIU program is based on the individual transferring student meeting the conditions and considerations listed for that program. Specifically, students completing the **Earth Science AS** program at SWIC will be admitted to the baccalaureate **Geology BS** program at EIU.
3. The courses listed in the attached prescribed SWIC transfer guide has been reviewed and accepted for transfer to EIU.
4. Relationships between SWIC and EIU faculty and administration are in the spirit of cooperation and provide the basis for this agreement
5. Representatives of both institutions agree to meet on a regular basis to assess curricular changes and other conditions that may affect the nature of this agreement.
6. This agreement does not preclude either institution from making curriculum changes as it may solely deem appropriate in which case appropriate prior notice will be given to the operative academic personnel at the cooperating institution.
7. Appropriate publications and promotional materials regarding this agreement will be made available to all SWIC students.
8. Either EIU or SWIC may dissolve this agreement by giving one years' advance notice to the cooperating institution's president or academic vice president.
9. This agreement is effective for the **2023- 2027** academic years and is subject to renewal quadrennially.
