The College of Education & Professional Studies Technology Committee would like to request your participation in the Fall 2003 Student Technology Proficiency. Your voluntary participation is needed and valued to improve our programs. Your course has been identified as one of the courses to participate in the Fall 2003 Student Technology Survey. Please encourage your students participation in this survey to help the CEPS Technology committee in planning and research activities.

**Instructions for accessing the CEPS Student Technology Proficiency**

Students will need to go to [http://www.eiu.edu/ceps/tech](http://www.eiu.edu/ceps/tech) and select the Take the Fall 2003 Student Technology Survey link. Students will be prompted for a user name and password. All students will use the following User Name and Password:

User Name: **stutech**  
Password: **survey**

User name and passwords are Case-Sensitive so be sure to use all lower case letters.

There will be a brief overview of the survey, what it is used for and a request for voluntary student participation. Please inform the students that the first question asks them to identify the course that they were requested to take the survey for. Students should select the appropriate course name from the list of choices. Students should answer all questions honestly and thoroughly as this information will be used for planning and research purposes. The survey will require approximately 10 to 15 minutes to complete.

Thank you for your participation.

Thank You,  
Tom Grissom  
Pat Fewell
