

**LUMPKIN COLLEGE OF BUSINESS AND APPLIED SCIENCES
EXECUTIVE ACTION REQUEST**

TO: Council on Graduate Studies

FROM: Dr. Austin Cheney, Dean, Lumpkin College of Business and Technology

DATE: 1/27/2023

ACTION REQUESTED: Correction of an error in the Graduate Catalog for the TEC 5373 course designation of credit breakdown.

RATIONALE: Upon reviewing the TEC 5373 course it was noticed that the course is miss listed as a 3-0-3 course. The TEC 5373 course has a laboratory component as stated in the course description (see catalog below). As a laboratory-based course we are requesting a change to a 2-2-3 course.

EFFECTIVE DATE: (i.e.: Fall 20XX, Spring 20XX): Fall 2023

CURRENT CATALOG COPY:

TEC 5373 – Java Application in Technology

(3-0-3) A Java course focusing on application in technology. Students will review Java literature, participate in programming laboratory in digital instrument communication and control, and learn Java web application and enterprise architecture.

PROPOSED CATALOG COPY:

TEC 5373 – Java Application in Technology

(2-2-3) A Java course focusing on application in technology. Students will review Java literature, participate in programming laboratory in digital instrument communication and control, and learn Java web application and enterprise architecture.
