RE: Executive Action Item

Polydore
9/28/2022

I am requesting the following item be approved by executive action.

Requested Change: Remove the undergraduate Abnormal Psychology prerequisite prior to taking CHE 5980 Diagnosing and Treatment Planning.

Rationale for the change: The faculty have discussed the original rationale for implementation, and have determined that previous benefits no longer exist, and may serve as a barrier to prospective students. Additionally, the course is not required by the Council of Accreditation of Counseling and Related Programs (CACREP) and does not count towards the MS program.

Departmental Course Title Approval Date: 9/28/22

Program Effective Date: Fall 2022
