Subject: Request for executive action

Requesting that hybrid delivery modality be added to NTR 5610: Systematic Reviews in Nutrition & Dietetics.

Rationale: Course was approved in Spring 2021 with a Fall 2021 implementation, and is approved for Face-to-Face delivery and also for online course delivery. The Nutrition & Dietetics faculty wish to teach it in hybrid format in Fall 2023, and it wasn't until we attempted to add it in BANNER as a hybrid course that we discovered it was not approved for that delivery modality. The NTR faculty believe it was simply an oversight that it was not originally approved for hybrid format.

Effective: Fall 2023.
