Re: Associate Graduate Faculty Limitation Waiver Request

Please find attached an application to appoint Dr. Paul Janssen Danyi as an Associate Graduate Faculty member in the department of Political Science for a three-year term. Based on the recommendation of the graduate coordinator, Dr. Ryan Burge, I am requesting that Associate Graduate Faculty limitations be waived for Dr. Janssen Danyi, so that he can supervise theses and capstones, and sit on committees where appropriate.

Dr. Janssen Danyi has a Ph.D. in Political Science and has served as a Unit B faculty member in Political Science since 2014. He is one of only 2 faculty members with training in international relations and is in high demand from our face-to-face and online students for mentorship. He is an excellent research mentor. This is especially important for our international students, who typically focus on international and comparative politics.

Research in Progress

Disability and Local/National Civic Participation in Chile – this project seeks to exploit uniquely detailed data from a national survey of people with disabilities in Chile prompted by a relatively new United Nations framework for assessing the rights of the disabled. Granular and intersectional data on disability and civic participation has the potential to advance our understanding of the ways in which the disabled (physical/cognitive) participate in civil society and local/national governance.

Familial Violence, Domestic Abuse, and Women's Civic Participation — this project, carried out with a full class of undergraduate methods students, aims to be the first quantitative assessment of the detailed ways in which domestic violence, VAW, and other forms of familiar abuse impact women's ability to participate in civil society and politics.
