#### **PART IV: PURPOSE AND NEED**

## 1. Explain the department's rationale for developing and proposing the course.

This is a required course for the M.S. in Counseling. It is also a competency required for continued accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

- a. If this is a general education course, you also must indicate the segment of the general education program into which it will be placed, and describe how the course meets the requirements of that segment. N/A
- b. If the course or some sections of the course may be technology delivered, explain why. N/A
- 2. Justify the level of the course and any course prerequisites, co-requisites, or registration restrictions.

This is a required course for the M.S. in Counseling. It is also a competency required for continued accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Pre-requisites ensure proper preparation for higher level counseling practice in the field.

- 3. If the course is similar to an existing course or courses, justify its development and offering.
  - a. If the contents substantially duplicate those of an existing course, the new proposal should be discussed with the appropriate chairpersons, deans, or curriculum committees and their responses noted in the proposal. None at graduate level.
  - b. Cite course(s) to be deleted if the new course is approved. If no deletions are planned, note the exceptional need to be met or the curricular gap to be filled.

    Revised course only.

## 4. Impact on Program(s):

- a. For undergraduate programs, specify whether this course will be required for a major or minor or used as an approved elective.
- b. For graduate programs, specify whether this course will be a core requirement for all candidates in a degree or certificate program or an approved elective.
   Required for graduate students admitted to M.S. in Counseling in the Department of Counseling and Student Development.

If the proposed course changes a major, minor, or certificate program in or outside of the department, you must submit a separate proposal requesting that change along with the course proposal. Provide a copy of the existing program in the current catalog with the requested changes noted.

## **PART V: IMPLEMENTATION**

#### PART VI: COMMUNITY COLLEGE TRANSFER

If the proposed course is a 1000- or 2000-level course, state either, "A community college course may be judged equivalent to this course" OR "A community college course will not be judged equivalent to this course." A community college course will not be judged equivalent to a 3000- or 4000-level course but may be accepted as a substitute; however, upper-division credit will not be awarded.

## PART VII: APPROVALS

Date approved by the department or school: 1/18/2012

Date approved by the college curriculum committee: 4/2/2012

Date approved by the Honors Council (if this is an honors course):

Date approved by CAA: CGS:

\*In writing-active courses, frequent, brief writing activities and assignments are required. Such activities -- some of which are to be graded – might include five-minute in-class writing assignments, journal keeping, lab reports, essay examinations, short papers, longer papers, or a variety of other writing-to-learn activities of the instructor's invention. Writing assignments and activities in writing-active courses are designed primarily to assist students in mastering course content, secondarily to strengthen students' writing skills. In writing-intensive courses, several writing assignments and writing activities are required. These assignments and activities, which are to be spread over the course of the semester, serve the dual purpose of strengthening writing skills and deepening understanding of course content. At least one writing assignment is to be revised by the student after it has been read and commented on by the instructor. In writing-intensive courses, students' writing should constitute no less than 35% of the final course grade. In writing-centered courses (English 1001G, English 1002G, and their honors equivalents), students learn the principles and the process of writing in all of its stages, from inception to completion. The quality of students' writing is the principal determinant of the course grade. The minimum writing requirement is 20 pages (5,000 words).
