### 5. Online/Hybrid delivery justification & assurances (answer N/A if not applicable)

Online or hybrid delivery justification: The primary justification for online delivery is to satisfy the requirement for this course as part of the Aging Studies Master's program. This program is transitioning to an exclusively on-line format so that this course will be required to be offered in this format. Many potential Aging Studies students are currently working in the profession in a full time capacity and would otherwise be unable to pursue advanced education in their profession. The online availability of the Aging Studies program will better meet the needs and offer flexibility of schedule for these student-professionals.

<u>Instruction</u>: The EIU approved online learning management system will be used to provide a sound virtual learning environment for the delivery and administration of the online section of this course. Quizzes and exams will be completed and graded online. Assignments will be delivered through the online learning management system and graded electronically. Participation in online discussion will be conducted, monitored and graded through the course management system's discussion forum. 'Gradebook' tools will be used to show student progress and for grade finalization and confidential grade posting. The course will be taught by individuals who have successfully completed the OCDi training or who have met the other requirements of the technology-delivered course policy.

<u>Integrity</u>: The course syllabus will contain a statement on academic integrity and honesty with a link to the university policy. All writing assignments will be submitted to EIU approved plagiarism detection software (e.g. Turnitin) to aid in the assurance of original authorship of writing samples.

<u>Interaction</u>: The instructor and students will be able to communicate with each other through

online chat, discussion, and pager options along with email available through an asynchronous online learning management system as well as the EIU email system. The instructor will post regular office hour availability for telephone contact.
