

**Proposed ~~Reviews~~ Revisions to the online MA in Political Science  
with the Option in Public Administration and Public Policy**

CGS Agenda Item: 18-15  
Effective Fall 2018

**Rationale for Program Revisions**

1. We are updating the curriculum to reflect additional courses available in the program:
  - PLS 4763 – Environmental Politics and Policy
  - PLS 5900 A-Z – Special Topics in Political Science, Public Administration & Public Policy
  - PLS 4763 will count as an elective in Public Administration/Public Policy or in Political Science, but cannot double count. PLS 5900 will count in the elective category appropriate to the course content, and cannot double-count in both categories.
2. We are removing the Thesis option for the online program.
  - So far none of our students have selected the Thesis option
  - We believe the Capstone project is a better fit for the online students. The Capstone requires a clear demonstration of content knowledge, critical thinking and writing, research skills, and communication skills, but is more suited to the professional interests of our online students.
  - As a result of this change, the additional coursework hours have been adjusted as well.
3. We are changing the research methods requirement for students in the online option.
  - We are deleting PLS 5001 from the curriculum. Some of the content from that 1-credit course will be integrated into the new research methods course, while some will be integrated into our graduate orientation program.
  - We are replacing PLS 5053/Research Methods with PLS 5054/Research Methods in Public Administration and Public Policy.
4. We are removing PLS 5997/Study Abroad for the online option.

**Effective Year/Term: Fall 2018**

### **Public Administration/Public Policy Option**

**Program Mission:** The Master of Arts in Political Science with the Option in Public Administration/Public Policy program provides an online curriculum for students interested in public administration, nonprofits, and public policy. Students will receive training in the advanced analytical, methodological, and theoretical approaches used in political science. The curriculum prepares students for work in public administration, including employment in all levels of government, non-profit management, lobbying, private sector government relations, and public policy analysis. Internships related to public administration, public policy and nonprofits are available.

**Admission Requirements:** To be eligible for degree candidacy, applicants must meet all of the requirements for admission to the Graduate School (see “Admission to Graduate Degree and Certificate Programs”). All applicants must submit a statement of personal goals and two letters of recommendation from faculty or professionals familiar with the applicant’s academic training and potential for success in graduate school.

**Degree Audit:** The graduate plan of study is the EIU Degree Audit, which is generated automatically in the Degree Audit Reporting System (DARS) at the time of degree or certificate candidacy. Modifications of the standard EIU Degree Audit are submitted by the graduate coordinator to the certification officer in the Graduate School at the time modifications are approved. The Degree Audit serves as an unofficial summary of requirements for the program. Degree and certificate candidates are advised to review the comprehensive summary of the Degree Audit process specified on the “Requirements for All Degree and Certificate Candidates” section of the Graduate Catalog. Individual programs may require candidates to submit plans of study in addition to the Degree Audit, candidates should consult with the program coordinator.

### **Degree Requirements**
