RE: Executive Action Taken at the College of Sciences Curriculum Committee Meeting of February 20, 2015

The following was approved by executive action at the College of Sciences Curriculum Committee meeting on February 20, 2015 to be effective Fall, 2015. I ask that similar action be taken at the Council on Graduate Studies.

REQUEST #1:

Requested Change:

Change the name BIO 5452

Current Course Name: Ethnobotany

Proposed Course Name: Medicinal Plants

Rationale for change:

This name change better reflects the course content (makes topic more understandable by the student population), but content is unaffected.

Effective Year/Term:

Fall, 2015
