RE: Executive Action request procedure for courses moving to online delivery

DATE: February 22, 2016

---

Proposal: The Council on Graduate Studies Executive Committee (Dr. Matthew Gill, Chair, and Dr. Melissa Jones, Vice Chair) requests that the following action be listed with the currently approved items approved for executive action:

"5000 level and above courses that seek to change the mode of delivery where course content remains the same."

Rationale: This proposal seeks to expedite the process to allow graduate programs to more expeditiously place graduate level courses (5000 and above) in an online delivery format.
