DATE: March 7, 2017
RE: Executive Action Taken at the College of Sciences Curriculum Committee Meeting on February 24, 2017

The following request was approved by executive action at the College of Sciences Curriculum Committee meeting on February 24, 2017. The request would be effective Fall 2017. I ask that similar action be taken at the Council on Graduate Studies.

Requested change: Delete *GEO 3425 – Engineering Geology*, *GEO 4450 – Well Log Interpretation*, and *GEO 4892 – Paleobotany* from the Undergraduate Catalog. *GEO 4892 – Paleobotany* should also be removed from the Graduate Catalog. These courses will also be removed from reference in the Geology major.

Rationale for change: GEO 3425, GEO 4450, and GEO 4892 are courses that are no longer taught since the Department of Geology/Geography no longer has faculty with the expertise to teach those classes.

Effective Year/Term: Fall 2017
