cc

Austin Cheney, Chair, School of Technology

**LUMPKIN COLLEGE OF BUSINESS AND APPLIED SCIENCES
EXECUTIVE ACTION REQUEST**

TO: Amy Annis, Certification Officer

FROM: Austin Cheney, Chair School of Technology

DATE: February 15, 2017

ACTION REQUESTED:

1.

Change the name of TEC 5283: Instructional Systems Design to TEC 5283 Instructional Design and add prerequisite of TEC 5203: Analysis of Training and Development Issues

RATIONALE:

TEC 5283 is the course that covers instructional design. Over the years, courses have been added that focus on analysis and evaluation so the focus of this course is concentrated on instructional design, development, and implementation. The new title would better reflect the focus of the course and reduce confusion. The prerequisite of Analysis of Training and Development Issues enables students to enter the course with a thorough understanding of the step that proceeds the design, development, and implementation phases.

EFFECTIVE DATE:

Fall 2017

CURRENT CATALOG COPY:

TEC 5283 – Instructional Systems Design
(3-0-3) Examination of the systems approach to instructional design in training. Students will analyze and apply the major components of instructional systems design, including needs analysis, design, development, implementation, and evaluation of training instruction.

Credits: 3

PROPOSED CATALOG COPY:

TEC 5283 – Instructional Design

(3-0-3) Examination of instructional design in training. Students will utilize the major components of instructional systems design to develop training instruction.

Prerequisites & Notes

TEC 5203 with a grade of C or better
