Effective Spring 2019

Current:

DGT 4763 - Costing and Planning for Media Projects.

(3-0-3). A study of planning and costing for media projects. This course will focus on the study of estimating, costing, and planning for the capture and production of products specific to web, digital printing, video gaming, animation, simulation, and photography. Course restricted to Digital Media majors and students in the MS in Technology.

Prerequisites & Notes:

A grade of "C" or better in MAT 2120G and AET 1363.

Credits: 3

Proposed:

DGT 4763 - Costing and Planning for Media Projects.

(3-0-3). A study of planning and costing for media projects. This course will focus on the study of estimating, costing, and planning for the capture and production of products specific to web, digital printing, video gaming, animation, simulation, and photography. Course restricted to Digital Media majors and students in the MS in Technology.

Prerequisites & Notes:

A grade of "C" or better in ~~MAT 2120G and~~ AET 1363.

Rationale:

MAT 2120G is not a required course in this degree program. Further, we have had a number of students with sufficient math background transfer in from community colleges. Additionally, other schools with a similar costing or planning course do not have a required math course.
