

EFFECTIVE DATE: FALL 2013

PROGRAM REVISION REQUEST: B.S. in Recreation Administration

Therapeutic Recreation Option

1 Hour required Course Addition

Reason for the Request:

The Department of Recreation Administration has historically been accredited in Therapeutic Recreation through the Council on Accreditation for Parks, Recreation, Tourism, and Related Professions (COPART). This accreditation includes preparation for Therapeutic Recreation Certification through the National Council for Therapeutic Recreation Certification (NCTRC). The certification process includes appropriate course work, approved internship experience and the successful passing of a national exam. In the TR Program's earlier coursework, information and concerns relate to the wide variety of Therapeutic Recreation agencies, yet as the student becomes closer to the internship, more targeted information is pertinent to success in a particular agency with a particular population. This information includes targeted agency requirements, disability type, related medical terminology, agency contextual issues and global issues for the TR field as it relates to particular settings.

This request is to add a 1 hour Senior Seminar to the Therapeutic Recreation Curriculum.

APPROVALS:

Date approved by the department: 2/6/13
