Eastern Illinois University

NEW/REVISED COURSE PROPOSAL FORMAT

(Approved by CAA on 9/29/11 and CGS on 10/18/11, Effective Fall 2011)

This format is to be used for all courses submitted to the Council on Academic Affairs and/or the Council on Graduate Studies.

Ple	ease check one:x_ New course Revised course				
PA	ART I: CATALOG DESCRIPTION				
1.	Course prefix and number, such as ART 1000: HST 5900				
2.	Title (may not exceed 30 characters, including spaces): Graduate Project				
3.	Long title, if any (may not exceed 100 characters, including spaces): N/A				
4.	Class hours per week, lab hours per week, and credit [e.g., (3-0-3)]: 3-0-3				
5.	Term(s) to be offered: _x_ Fall _x_ Spring _x_ Summer On demand				
6.	Initial term of offering: _x_ Fall Spring Summer Year: _2014_				
	 Course description: (Credit/No Credit) Enrollment for more than three semester hours requires permission of the graduate coordinator or chair. This course is designed for students who are completing the Project Option of the degree program. The course includes the extensive critical review of literature on a specific topic and a written manuscript for submission to a specific journal approved by the project committee. Registration restrictions: 				
	 Equivalent Courses Identify any equivalent courses (e.g., cross-listed course, non-honors version of an honors course) N/A Indicate whether coding should be added to Banner to restrict students from registering for the equivalent course(s) of this course. Yes _x_ No 				
	b. Prerequisite(s)				
	• Identify the prerequisite(s), including required test scores, courses, grades in courses, and technical skills. Indicate whether any prerequisite course(s) MAY be taken concurrently with the proposed/revised course.				
	Only students enrolled as degree seeking candidates in the Master of Science in Health Promotion and Leadership are eligible.				
	• Indicate whether coding should be added to Banner to prevent students from registering for this course if they haven't successfully completed the prerequisite course(s). Yes _x_ No				
	If yes, identify the minimum grade requirement and any equivalent courses for each prerequisite course:				
	c. Who can waive the prerequisite(s)? _x_ No one Chair Instructor Advisor Other (Please specify)				
	d Co-requisites (course(s) which MUST be taken concurrently with this one): N/A				

	e.	Repeat status:	_x_ Course may not be repeated.		
			Course may be repeated once with credit.		
			Please also specify the limit (if any) on hours which may be applied to a major or minor.		
	f. Degree, college, major(s), level, or class to which registration in the course is restricted, if any:				
	Only students enrolled as degree seeking candidates in the Master of Science in Health Promotion and Leadership are eligible.				
	g.	g. Degree, college, major(s), level, or class to be excluded from the course, if any:			
9.	_	Special course attributes [cultural diversity, general education (indicate component), honors, remedial, writing centered or writing intensive]			
	N/A				
10. Grading methods (check all that apply): Standard letter _x_ CR/NC Audit ABC/NC ("Standard letter"—i.e., ABCDFis assumed to be the default grading method unless the course description indicates otherwise.)					
	Please check any special grading provision that applies to this course:				
	The grade for this course will not count in a student's grade point average.				
	The credit for this course will not count in hours towards graduation.				
If the student already has credit for or is registered in an equivalent or mutually exclusive course, check any that apply:					
	The grade for this course will be removed from the student's grade point average if he/she alread has credit for or is registered in (insert course prefix and number).				
			urs for this course will be removed from a student's hours towards graduation if he/she as credit for or is registered in (insert course prefix and number).		
11	. Ins	structional delive	ry method: (Check all that apply.)		
			lecture lab lecture/lab combined x independent study/research		
			internship performance practicum or clinical study abroad		
			Internet hybrid other (Please specify)		

PART II: ASSURANCE OF STUDENT LEARNING

1. List the student learning objectives of this course:

- a. If this is a general education course, indicate which objectives are designed to help students achieve one or more of the following goals of general education and university-wide assessment:
 - EIU graduates will write and speak effectively.
 - EIU graduates will think critically.
 - EIU graduates will function as responsible citizens.

N/A

- b. If this is a graduate-level course, indicate which objectives are designed to help students achieve established goals for learning at the graduate level:
 - Depth of content knowledge
 - Effective critical thinking and problem solving
 - Effective oral and written communication
 - Advanced scholarship through research or creative activity

All of the above learning goals will be assessed through the Graduate Project.

2. Identify the assignments/activities the instructor will use to determine how well students attained the learning objectives:

All candidates completing a Graduate Project will be required to develop a project proposal that will be assessed by the project committee using a rubric that rates the candidate on critical thinking and problem solving skills based on the merits of the proposal.

All candidates completing a Graduate Project will be assessed using a rubric that rates the candidate on written expression, depth of content knowledge, and advanced scholarship.

All candidates completing a Graduate Project will be assessed using a rubric that rates the candidate on oral expression. The Graduate Project defense will be used as the experience required to rate oral expression.

3. Explain how the instructor will determine students' grades for the course:

All candidates will receive DC or deferred credit until the project is completed to the satisfaction of the committee and the project chair. The Graduate Project chair will request a change of grade to credit after the committee signs the Graduate Project completion form and the Graduate Project is deposited with the library. Deposit of the Graduate Project with the library indicates that the Graduate Project meets the Graduate Project chair and committee's satisfaction to award credit.

- 4. For technology-delivered and other nontraditional-delivered courses/sections, address the following:
 - a. Describe how the format/technology will be used to support and assess students' achievement of the specified learning objectives:
 - b. Describe how the integrity of student work will be assured:
 - c. Describe provisions for and requirements of instructor-student and student-student interaction, including the kinds of technologies that will be used to support the interaction (e.g., e-mail, web-based discussions, computer conferences, etc.):

N/A

- 5. For courses numbered 4750-4999, specify additional or more stringent requirements for students enrolling for graduate credit. These include:
 - a. course objectives;
 - b. projects that require application and analysis of the course content; and
 - c. separate methods of evaluation for undergraduate and graduate students.

N/A

6. If applicable, indicate whether this course is writing-active, writing-intensive, or writing-centered, and describe how the course satisfies the criteria for the type of writing course identified. (See Appendix *.)

N/A

PART III: OUTLINE OF THE COURSE

Provide a week-by-week outline of the course's content. Specify units of time (e.g., for a 3-0-3 course, 45 fifty-minute class periods over 15 weeks) for each major topic in the outline. Provide clear and sufficient details about content and procedures so that possible questions of overlap with other courses can be addressed. For technology-delivered or other nontraditional-delivered courses/sections, explain how the course content "units" are sufficiently equivalent to the traditional on-campus semester hour units of time described above.

Candidates completing the Project option in the Master of Science in Health Promotion and Leadership will be required to follow the guidelines specified by the Department of Health Studies. These steps include, but are not limited to:

- Approval to Maintain and Reproduce the Graduate Project
- Approval of the Graduate Project Committee
- Approval of the Graduate Project Proposal
- Completion of a Written Paper meeting the Committee's Approval
- Completion of an Oral Defense meeting the Committee's Approval
- Deposit of the Graduate Project with Booth Library

PART IV: PURPOSE AND NEED

- 1. Explain the department's rationale for developing and proposing the course.
 - a. If this is a general education course, you also must indicate the segment of the general education program into which it will be placed, and describe how the course meets the requirements of that segment. N/A
 - b. If the course or some sections of the course may be technology delivered, explain why. N/A
- 2. Justify the level of the course and any course prerequisites, co-requisites, or registration restrictions.

The Master's Graduate Project serves as the capstone project for candidates in the Project option and is completed after the candidates have completed sufficient study to warrant preparation to make an original contribution to the discipline.

- 3. If the course is similar to an existing course or courses, justify its development and offering.
 - a. If the contents substantially duplicate those of an existing course, the new proposal should be discussed with the appropriate chairpersons, deans, or curriculum committees and their responses noted in the proposal. $\rm\,N/A$
 - b. Cite course(s) to be deleted if the new course is approved. If no deletions are planned, note the exceptional need to be met or the curricular gap to be filled. N/A

4. Impact on Program(s):

- a. For undergraduate programs, specify whether this course will be required for a major or minor or used as an approved elective. $\ensuremath{\mathrm{N}/\mathrm{A}}$
- b. For graduate programs, specify whether this course will be a core requirement for all candidates in a degree or certificate program or an approved elective.

The Graduate Project will be a core requirement for candidates in the Project option.

If the proposed course changes a major, minor, or certificate program in or outside of the department, you must submit a separate proposal requesting that change along with the course proposal. Provide a copy of the existing program in the current catalog with the requested changes noted. $\rm N/A$

PART V: IMPLEMENTATION

1. Faculty member(s) to whom the course may be assigned:

If this is a graduate course and the department does not currently offer a graduate program, it must document that it employs faculty qualified to teach graduate courses.

All faculty members who are member of the Graduate Faculty may serve as a Graduate Project chair or serve on a Graduate Project committee. The program currently has a sufficient number of graduate faculty members to support Graduate Project work.

2. Additional costs to students:

Include those for supplemental packets, hardware/software, or any other additional instructional, technical, or technological requirements. (Course fees must be approved by the President's Council.)

There will not be additional costs to students.

3. Text and supplementary materials to be used (Include publication dates): N/A

PART VI: COMMUNITY COLLEGE TRANSFER

If the proposed course is a 1000- or 2000-level course, state either, "A community college course may be judged equivalent to this course." A community college course will not be judged equivalent to this course." A community college course will not be judged equivalent to a 3000- or 4000-level course but may be accepted as a substitute; however, upper-division credit will not be awarded.

N/A

PART VII: APPROVALS

Date approved by the department or school: 10/24/13

Date approved by the college curriculum committee:

Date approved by the Honors Council (if this is an honors course):

Date approved by CAA: CGS:

*In writing-active courses, frequent, brief writing activities and assignments are required. Such activities -- some of which are to be graded – might include five-minute in-class writing assignments, journal keeping, lab reports, essay examinations, short papers, longer papers, or a variety of other writing-to-learn activities of the instructor's invention. Writing assignments and activities in writing-active courses are designed primarily to assist students in mastering course content, secondarily to strengthen students' writing skills. In writing-intensive courses, several writing assignments and writing activities are required. These assignments and activities, which are to be spread over the course of the semester, serve the dual purpose of strengthening writing skills and deepening understanding of course content. At least one writing assignment is to be revised by the student after it has been read and commented on by the instructor. In writing-intensive courses, students' writing should constitute no less than 35% of the final course grade. In writing-centered courses (English 1001G, English 1002G, and their honors equivalents), students learn the principles and the process of writing in all of its stages, from inception to completion. The quality of students' writing is the principal determinant of the course grade. The minimum writing requirement is 20 pages (5,000 words).
