From: Dr. Mark Kattenbraker, Interim Chair, Kinesiology & Sports Studies (KSS)  
Date: November 4, 2016  
Re: Executive Action Request

The KSS department is requesting to allow the following graduate courses to be offered online as well as fact to face:

KSS 5260 – Cardiopulmonary Exercise Physiology	Effective Summer 2017
KSS 5250 – Exercise Electrocardiography	Effective Fall 2017
KSS 5005 – Literature Review in Kinesiology & Sports Studies	Effective Spring 2018

**Rationale:**

Online offerings of these courses will allow for greater flexibility with scheduling for non-traditional students and students with assistantships. Additionally, online offerings have potential to attract more students to the program.
