Kinesiology & Sports Studies Department

To: Doug Bower, Interim Dean, College of Education and Professional Studies

From: Dr. Mark Kattenbraker, Chair, Kinesiology & Sports Studies (KSS)

Date: October 12, 2017

Re: Executive Action Request

The KSS department is requesting permission to allow the following graduate courses to be offered in an online delivery format, in addition to the current face-to-face format:

KSS 5270 – Neuromuscular Exercise Physiology	Effective Fall 2018
--	---------------------

KSS 5280 – Exercise Metabolism Body Composition	Effective Spring 2018
---	-----------------------

Rationale:

The option to offer these courses online will potentially attract more students and it provides greater flexibility for students, instructors and graduate assistants.
