Eastern Illinois University is accredited by the North Central Association of Colleges and Schools.

Teacher Education Vision:

A shared vision for teacher preparation ensures coherence of curriculum, instruction, field-based experiences, and assessment across a future teacher's university program. All educators must have the knowledge bases to be able to plan effectively and manage educational environments that maximize learning by all students. Knowledge of how individuals learn, subject area competence, pedagogical knowledge, and an understanding of the communities and societies in which schools function are essential. Practice-based programs are vital to success. Clinical experiences are designed to ensure that future teachers progress from observation to small and large group instruction and culminate in a full semester of student teaching.

- Emphasis on partnerships between future teachers, the University, and the public schools.
- Sequenced, supervised, and evaluated field experiences.
- Experienced faculty who are teacher-scholars and who model effective teaching.
