This contract is valid only during the period beginning ___ / ___ / ___ **and ending** ___ / ___ / ___

Introduction

Practicum is intended to combine course work with a 100 hour field experience conducted in a setting as similar as possible to that in which Practicum supervisees subsequently intend to seek employment. The nature of this experience should be very much like that of a regular counseling position, but with intensive supervision both on-site and on-campus. Because the Practicum experience occurs after supervisees have mastered basic-level communication skills and have taken a pre-Practicum course, the emphasis at this stage of their development must be upon training rather than service provision. Practicum sites and supervisors play a pivotal role in helping supervisees begin the transition into their professional identities. For this reason, developing a Practicum plan with sufficient emphasis upon professional development is extremely important.
