# Didactic Program in Dietetics (DPD) requirement
^ Writing Intensive Course

May 7, 2013

The Didactic Program in Dietetics is accredited by the Accreditation Council for Education in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Chicago, IL 60606-6995, 312/899-5400.
Program Mission and Goals

The Didactic Program in Dietetics (DPD) at Eastern Illinois University is housed within the School of Family and Consumer Sciences. The mission of our DPD is to provide students with Foundation Knowledge and Skills through theory-to-practice; relationship-driven education preparing graduates to competently participate in a Dietetic Internship. The program is committed to instilling in students the ability to be critical and independent thinkers while working in a team environment and promoting an appreciation of and dedication to the profession of dietetics. The Didactic Program in Dietetics has been granted accreditation by the Accreditation Council for Education in Nutrition and Dietetics of The Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Chicago, IL 60606-6995, 312/899-5400.

The following program goals have been identified for the years 2007-2016.

1. Prepare graduates to have the Foundational Knowledge and Skills as defined by the Academy for entry-level dietitians in our diverse society.
2. Continue to promote dietetics, and its diversity, as a viable career option/program.
3. Continue to support the needs of the DPD by offering a wide variety of learning experiences, in and out of the classroom, that provide theory-to-practice, relationship-driven education.

Suggested Timeline for Program Completion

The sequencing of chemistry and other science classes is critical due to prerequisites for several DPD courses. Suggested minors include: business administration, chemistry and psychology.
