

Learning Stations at Arcola Elementary School

Students in Dr. Padmaraju's Language Arts Methods class planned and implemented learning stations for second grade students at Arcola Elementary School again this semester. Mrs. Brienne Eads, the classroom teacher decides what the theme is going to be based on her curriculum and the EIU students then create the activities for each of the learning stations based on the theme. This is an ongoing partnership that both Mrs. Eads and Dr. Padmaraju want to continue as they see the positive impact it has on both the EIU students as well as the second grade students.
