UNIT Theme: Educator as creator of effective educational environments, integrating diverse students, strategies, societies, subjects, and technologies.

Course Description: (2-1-2) This course, based on the national and state educational technology standards is designed to prepare teachers to integrate technology into the curriculum. This course will focus on the effective use of technology in teaching and learning.

Prerequisite: Passing score on the CEPS technology proficiency.

Course Purpose: EDU 2022 is structured to offer teacher candidates opportunities to:
1. Practice and expand personal use of various kinds of hardware and software.
2. Use technology in the design of curriculum for constructivist teaching and learning.
3. Apply learning theory to evaluate quality technology experiences.
4. Make informed judgments about social and ethical issues involving technology.
5. Develop strategies and commitment to explore new and emerging educational technologies.

Textbooks:

Supplemental Materials:
Flash drive

Teaching Models:

The Information-Processing Models
- Information-processing models emphasize ways of enhancing the human being’s innate drive to make sense of the world by acquiring and organizing data, sensing problems and generating solutions to them, and developing concepts and language for conveying them.

Dispositions: Candidates in the Department of EC/ELE/MLE will exhibit professional ethical practices, effective communication, sensitivity to diversity, the abilities to provide varied teaching practices evidenced in a supportive and encouraging environment.

Standards:
Course requirements and demonstrated competencies are aligned with the following standards:
- Illinois Professional Teaching Standards (IPTS) http://www.isbe.state.il.us/profprep/PDFs/ipts.pdf
- Technology Standards for all Illinois Teachers (ICTS) http://www.isbe.net/profprep/CASCDvr/pdfs/24120_coretechnology.pdf
- SPA Standards Alignment (Special Professional Association Standards) based on
  - ACEI (Association for Childhood Education International) program standards for elementary teacher preparation http://www.acei.org/Synopsis.htm and http://www.acei.org/ncateindex.html
  - NAEYC (National Association for the Education of Young Children) NAEYC http://www.naeyc.org/accreditation/next_era.asp
### Course Outcomes

Students will be able to:

1. Review research studies of the effects and impact of technology on learning.
2. Evaluate ethical, legal and social equity issues pertaining to the impact of technology.
3. Apply terminology of the field, including Web 2.0.
4. Use, explore, and apply telecommunications opportunities: html editors as appropriate for teaching professionals, course management systems, videoconferencing, webcasts.
5. Use and apply word processing, database, presentation and spreadsheet programs relating to teacher administration and the curriculum of elementary and middle schools.
6. Create multimedia learning options, especially interactive whiteboard (SmartBoard) tools and applications.
7. Review and apply criteria to evaluate and select blogs, wikis, Web sites, educational software.
8. Design and produce appropriate technology supported instruction.
9. Appreciate the development of computer technology over time and implications of this history for instruction.
10. Practice strategies for continuous updating of computer literacy for teachers and students.
11. Practice ergonomics and proper care of computers and peripherals.
12. Design and maintain your own professionally appropriate website.

### COURSE REQUIREMENTS

Course Topics

I. Integrating Technology into the Curriculum
   A. Information literacy and terminology
   B. Identifying today’s digital kids
   C. ISTE standards
   D. Technology throughout the school and community

II. Networks, communications, Internet and World Wide Web
   A. Components of communications systems
   B. Browsers and search engines
   C. Web 2.0, social networking and K-8 teaching and learning
   D. Web impact on teaching and learning

III. Productivity tools
   A. Looking at operating systems and how they differ
   B. Teacher authoring and student authoring of documents and presentations
      1. Different programs for different purposes
      2. Expense, availability, and ease of use
   C. Video authoring and editing in K-8 schools.

IV. Hardware for Educators
   A. System units, ASCII, bits, bytes, input, output, storage
   B. ASCII, bits, bytes, MBs, GBs, binary code

V. Digital Media for the subject areas
   A. Use and creation of digital media
   B. Inquiry curriculum, learning cycle, project based models
   C. Examining models of best practice

VI. Assistive Technology

Revised November 2008/ July 2009
A. Curriculum adaptations and accommodations
B. State services
C. Classroom devices to meet special needs

VII. Evaluation
A. Evaluation of information sources
B. Evaluation of student learning

VII. Ethical considerations throughout educational technology

*The WebQuests and web sites are individual assignments. Students will work as partners to create other various projects in each class meeting. These projects will be presented to the whole class as part of the evaluation. All projects are DUE the day they are created, except for the WebQuests and web sites. All projects will be saved on students' portable hard drives and attached to web sites.
Tentative Class Schedule

Week 1: Introductions; overview of course; web site intro; WebQuest discussion; establish essential questions for WebQuest; begin website creation.

Week 2: continue WebQuest/IL standards; student examples, etc.

Week 3: Word – resume; cover letter

Week 4: PowerPoint

Week 5: Google Earth project

Week 6: Multimedia project

Week 7: Legal, ethical issues project

Week 8: Excel project; article review criteria discussion

Week 9: article review DUE with presentation

Week 10: Smartboard project

Week 11: Web sites evaluation

Week 12: Assistive/adaptive technology project

Week 13: Inspiration/Kidspiration project

Week 14: assessment project

Week 15: web sites and WebQuest DUE; present WebQuests; using digital images in lessons

Week 16: final

*This is tentative calendar of activities. There may be changes made later.

Attendance/Participation Policy

This class requires both partner and individual participation in projects at EACH class meeting. Each project is worth 5% of the total grade. Therefore, each absence will result in the loss of 5% of your final grade. This can add up if you have repeated absences, and cost you big time. Excused absences can only be attained BEFORE the actual absence, or in the case of illness, a doctor’s note can be brought in later. I will decide if an excused absence can be applied. So, there it is; show up to class!
