Teaching Model:

The Social Family Models: Building the Learning Community
- When we work together, we generate a collective energy that we call synergy. The social models of teaching are constructed to take advantage of this phenomenon by building learning communities. Essentially, “classroom management” is a matter of developing cooperative relationships in the classroom. The development of positive school cultures is a process of developing integrative and productive ways of interacting and norms that support vigorous learning activity.

The Behavioral Models
- Behavioral models concentrate on observable behavior and clearly defined tasks and methods for communicating progress to the student.

Dispositions: Teacher candidates in the Department of EC/ELE/MLE will exhibit professional ethical practices, effective communication, sensitivity to diversity, the ability to provide varied teaching practices evidenced in a supportive and encouraging environment.

Live Text Assessment Requirement: For those classes with Live Text or Practicum- If the portfolio or Live Text requirements are rated, by the instructor, to have been completed in less than a satisfactory manner then no more than a "D" may be earned in the class regardless of the number of points earned.

Standards:
Course requirements and demonstrated competencies are aligned with the following standards:
Association for Childhood Education International (ACEI) http://www.acei.org/Synopsis.htm
National Association for the Education of Young Children (NAEYC) http://www.naeyc.org/accreditation/next_era.asp
