Learning principles as they apply to the development of efficient study skills: emphasis on reading instruction designed to improve comprehension and rate.
Course Rationale:
“Reading…The act of reading is essentially a process of thinking. It has the scan and the scope beyond the camera. It is the cosmic screen of your own mind. It is a concentratively individual act, and individual involvement. The reader makes the printed communication happen…releasing the magic that causes words on the page to leap into living thoughts, ideas, emotions”. --Ira Epstein & Ernest Nieratka

   d. 1 pt -- inadequate work on all points of criteria
   e. 0 pt  -- work not submitted or does not meet intent of assignment
