

Eastern Illinois University
GEO 1390G, Earth Sciences, Honors

GEO 1390G. Earth Sciences, Honors. (3-2-4) On demand. Study of the planet Earth as a system consisting of lithosphere, hydrosphere, and atmosphere. Emphasis on how processes occurring with the solid, liquid and gaseous portions of the Earth system act to influence its surface. Field trips and short papers will stress scientific communication skills. Prerequisite: Admission to the University Honors Program. Writing intensive.
