4. For technology-delivered and other nontraditional-delivered courses/sections, address the following:
   a. Describe how the format/technology will be used to support and assess students’ achievement of the specified learning objectives:

   Using a course management system (CMS), students may access lectures via presentation software or learning modules that contain recorded lectures made using multimedia software. Students may also access through CMS assigned readings, links to multimedia, graded weekly discussion threads, other written assignments, rubrics, and an electronic drop box.

   b. Describe how the integrity of student work will be assured:

   To ensure the integrity of the course work discussion board assignments and text from all written assignments will be submitted through a plagiarism identification system. Academic integrity and online courtesy is discussed in the syllabus. Students will also be evaluated through a rigorous assessment. Discussions may use a face-to-face format or use web-conferencing software. Students will receive individual grading rubrics that specify levels of competence and individualized instructor feedback on assignments regarding the quality of their work.

   c. Describe provisions for and requirements of instructor-student and student-student interaction, including the kinds of technologies that will be used to support the interaction (e.g., e-mail, web-based discussions, computer conferences, etc.):

PART III: OUTLINE OF THE COURSE

Provide a week-by-week outline of the course’s content. Specify units of time (e.g., for a 3-0-3 course, 45 fifty-minute class periods over 15 weeks) for each major topic in the outline. Provide clear and sufficient details about content and procedures so that possible questions of overlap with other courses can be addressed. For technology-delivered or other nontraditional-delivered courses/sections, explain how the course content “units” are sufficiently equivalent to the traditional on-campus semester hour units of time described above.
This course is technology delivered, so students will be expected to spend the required time (3 hours/week equivalent class time) in the following manner: video conferencing/discussion (1 hour/week), reading, posting, and interacting on the discussion board – multiple postings each week (1 hour/week), viewing instructional content (Powerpoint presentations, recorded lectures, etc.) – (1 hour/week).

PART IV: PURPOSE AND NEED

1. Explain the department’s rationale for developing and proposing the course.

A course in the history and philosophy of music education is considered an essential learning experience for all students in graduate level study in music education. Concentrated inquiry into the aspects of music education history and philosophy is essential for further academic study.

   a. If this is a general education course, you also must indicate the segment of the general education program into which it will be placed, and describe how the course meets the requirements of that segment.
   b. If the course or some sections of the course may be technology delivered, explain why.

   The new hybrid version of the Music Education Concentration will make EIU competitive with similar degree programs that are being offered around the state and nation. The unique curriculum design allows working music educators to apply new ideas and teaching techniques directly to their classrooms as they advance through the program.

2. Justify the level of the course and any course prerequisites, co-requisites, or registration restrictions.

This course offers graduate level engagement and is appropriately placed at the 5000 level.

3. If the course is similar to an existing course or courses, justify its development and offering.

   a. If the contents substantially duplicate those of an existing course, the new proposal should be discussed with the appropriate chairpersons, deans, or curriculum committees and their responses noted in the proposal.
   b. Cite course(s) to be deleted if the new course is approved. If no deletions are planned, note the exceptional need to be met or the curricular gap to be filled.

4. Impact on Program(s):

   a. For undergraduate programs, specify whether this course will be required for a major or minor or used as an approved elective.
   b. For graduate programs, specify whether this course will be a core requirement for all candidates in a degree or certificate program or an approved elective.

   This course is a requirement for the Master of Arts in Music, Music Education Concentration.

   If the proposed course changes a major, minor, or certificate program in or outside of the department, you must submit a separate proposal requesting that change along with the course
proposa. Provide a copy of the existing program in the current catalog with the requested changes noted.

PART V: IMPLEMENTATION

1. Faculty member(s) to whom the course may be assigned: Danelle Larson, Gary Jensen, or other qualified music faculty.

   If this is a graduate course and the department does not currently offer a graduate program, it must document that it employs faculty qualified to teach graduate courses.

2. Additional costs to students:

   Include those for supplemental packets, hardware/software, or any other additional instructional, technical, or technological requirements. (Course fees must be approved by the President’s Council.)

   N/A

3. Text and supplementary materials to be used (Include publication dates):

PART VI: COMMUNITY COLLEGE TRANSFER

If the proposed course is a 1000- or 2000-level course, state either, "A community college course may be judged equivalent to this course" OR "A community college course will not be judged equivalent to this course." A community college course will not be judged equivalent to a 3000- or 4000-level course but may be accepted as a substitute; however, upper-division credit will not be awarded.

PART VII: APPROVALS

Date approved by the department or school: 28 March 2013

Date approved by the college curriculum committee: 11 September 2013

Date approved by the Honors Council (if this is an honors course):

Date approved by CAA: Not applicable           CGS: 1 October 2013

*In writing-active courses, frequent, brief writing activities and assignments are required. Such activities -- some of which are to be graded – might include five-minute in-class writing assignments, journal keeping, lab reports, essay examinations, short papers, longer papers, or a variety of other writing-to-learn activities of the instructor's invention. Writing assignments and activities in writing-active courses are designed primarily to assist students in mastering course content, secondarily to strengthen students' writing skills. In writing-intensive courses, several writing assignments and writing activities are required. These assignments and activities, which are to
be spread over the course of the semester, serve the dual purpose of strengthening writing skills and deepening understanding of course content. At least one writing assignment is to be revised by the student after it has been read and commented on by the instructor. In writing-intensive courses, students’ writing should constitute no less than 35% of the final course grade. In writing-centered courses (English 1001G, English 1002G, and their honors equivalents), students learn the principles and the process of writing in all of its stages, from inception to completion. The quality of students’ writing is the principal determinant of the course grade. The minimum writing requirement is 20 pages (5,000 words).
