5. Rationale
   a. Purpose and need:
      As the field of Theatre Arts becomes more technically oriented in the production discipline, it is the obligation of the Department to offer courses that will allow the student to be more competitive in the job market. It is the duty of both the Department and the student to become more knowledgeable in the areas that will forward the career of the student. To this end, this course is needed as the advanced production work.
   
   b. Justification of the level of the course and list of prerequisites:
      Since this course is designed as an advanced practical experience, it is at an advanced level. The prerequisite to this course is consistent with the intent of this course which builds upon a knowledge base. Prerequisite is: THA 2004 -Scenic/Lighting Practicum II.
   
   c. Similarity to existing courses:
1) This course is not similar to any existing course.
2) Our existing course THA 2000 (Rehearsal, Performance and Crew) will be deleted from the curriculum. The present THA 2000 gives activity credit for students who participate in Departmental productions in any manner; because the faculty feels this is too vague, the new THA 3002 (Advanced Scenic/Lighting Practicum) attempts to be more specific.
3) This course is part of the new Theatre Arts curriculum.

   d. Requirement or elective:

   This course will be an elective of Theatre Arts Majors/Minors. Students may repeat this course up to 3 times for a total of 4 semester hours credit.

6. Community College Transfer

   A community college course will not be judged equivalent to this course.
